DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7, drawn to a personal device for preparation of spumescent oxygen cocktail.

Group II, claim(s) 8-9, drawn to a gas bottle and its structure.

The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The claims in group II are drawn to the structure of a bottle for containing gas and do not contain any special technical features relating to the device of group I

2. A telephone call was made to James Walters on 9/17/2008 to request an oral election to the above restriction requirement, but did not result in an election being made.
